

MOBIRANGER

– YOUR OWN NATIONAL PARK GUIDE!

Let the mobile guide lead you deeper into the national park and its themes than you had even planned. Brief facts and longer stories, numerous pictures as well as videos and soundtracks will provide you with new perspectives on the attractions around you. Enjoy the health benefits and cultural experiences generated by the outdoor excursion.

START!

Start using the MobiRanger mobile guide by downloading it for free onto iOS (iPhone & iPad) and Android (Samsung) mobile devices and Windows 8 Phones from your device's app store.

The app and its contents are available in Finnish and English – the language version downloads automatically according to your device's default language.

To get the map sheets you need for your excursion, just download them onto your mobile device using the app's 'i' button. This ensures the app works during your hike even when offline. You can browse the contents in advance when planning your excursion, or afterwards at home to bring back memories.

Your own location is shown with a red, explore's shoe -symbol on the map.

By downloading the map sheets onto your device beforehand, you make sure that your location is shown even without mobile phone coverage.

EXPLORE!

Select the national park from logo

National parks have several starting points for excursions, found on different map sheets.

The guided attractions are marked with a colourful icon.

You'll get more information about the attraction by clicking the symbol

MobiRanger guides you to the world of geological sights in Pyhä-Luosto. The symbol for attractions is an amethyst, the jewel of Lapland.

MobiRanger tells about the history of the Urho Kekkonen national park's area. The guided attractions are marked with a sun symbol from the Sámi culture.

NAVIGATE!

Download the map sheets onto

Page menu which includes the app's settings and content
